- You may use any IDEs, Code/Text Editors you prefer, but IntelliJ will be used for all class demos and examples: [IntelliJ IDEA](#)
- IntelliJ is very widely used in industry.
- has excellent support for HTML, JavaScript, Java, Java Servlets and JSP, Spring, etc.
- IntelliJ is not open source and has a fee for commercial use, but is free for academic use.

Setup

- download IntelliJ 'ultimate' from jetbrains.com
  - https://www.jetbrains.com/student/ (click on APPLY NOW for all products at once)
  - submit your application with your mum student email address
- can run in 30 day free trial mode if don't get license right away, but should not take long
- download and install IntelliJIDEA Ultimate
- it will prompt you during installation for license key (or can indicate free trial)
